WORK EXPERIENCE

I do not have a previous work experience in this industry. But, I have 2 projects behind me. More precisely 2 websites, which can be viewed on the links above. I used HTML / CSS (bootstrap) and the basics of JS for data validation.

1.9.2011 – 24.5.2015

Finished high school (Gymnasium, all access) in Travnik

1.10.2015 – today

EDUCATION

Student of International University in Travnik, Faculty of Electrical Engineering, Computing and Informatics, 3th year(3+2).

I am ambitious and willing to work very hard to achieve my goals. I am persistent and determined. I'm good at team work because I know how to motivate and organize people. In addition, I'm "hungry" for knowledge. I spend my free time mostly on self-education, running, mountain climbing. In future my goal is to be a full stack developer. I am so awesome. You would be pleased to have employee like me.

PERSONAL SKILLS

MOTHER LANGUAGE   Bosnian

OTHER
LANGUAGE (S)

Languages Reading		Speaking		Writting
		Interaction	Understanding	
Englisch	**Good**	**Good**	**Very well**	**Good**
Deutsch	**Basic**	**Basic**	**Basic**	**-**

JOB – RELATED SKILLS

My level of knowledge of languages HTML/CSS is on advanced level, I am familiar with basic tags as well as frame work Bootstrap to make the site responsive for mobiles, laptops and desktops. I familiar objectly orientated programing. I am familiar with jQuery, Vanila at the beginning level. I know how to reach wanted elements and then to animate them and make them more functional. I know C ++ to pointers including them (following the script of Prof. Željko Jurić) and I have the desire to continue and learn even more about this very powerful programming language. I know Photoshop to an extent that has been so far useful for me, beginner's level.

My level of knowledge of SQL Maenagement Studio is on begginers level. I can create tables, bind them, write procedures for Inserting, updating, deleting and to make queries for obtaining certain data from one or more tables. As far as ASP.NET is concerned, I have been following lectures from FIT from Mostar and I managed to link my two web sites to the database, but it would also be labeled as a beginner level.

MS OFFICE	SELF ASSESSMENT				
	MS Word	PowerPoint	Access	Excel	Rješavanje problema
